

## **June 20 - Steering Committee Meeting Minutes**

The meeting began with Ramachandran presenting preliminary research through site visits and meetings with the Chinese Cultural Centre, Korean Cultural Centre and Armenian Community Centre. Committee members provided feedback received so far from outreach meetings with the community on points for consideration when developing the governance model. Ramachandran will prepare a draft governance model for the committee to review and edit to arrive at a consensus.

Vimalachandran provided an update on conversations with CreateTO. Next steps were discussed on how to secure land from the City of Toronto for the project: letter of incorporation, developing of business model, primary contacts, and identification of a lawyer.

Rang, Vimalachandran and Shan also provided updates on meeting with Councillors Lai, Crawford and McKelvie. All three Councillors were supportive of the project.

All committee members provided an update on outreach efforts and have agreed to share the online consultation tool and town hall event page online through social media. The committee has set a goal of collecting 1000 surveys and 100 endorsements by the town hall.
